MAUI—THURSDAY, MAY 10, 7 P.M.—FREE LECTURE
CAMERON CENTER, 95 MAHALANI STREET, WAILUKU

This presentation explores Hope Bohanec's book, *The Ultimate Betrayal: Is There Happy Meat?*, examining the new trend of alternative, small scale animal farming. It is becoming popular to support cage-free eggs, family-farmed dairy, and organic meat— but is this trend really the answer to the plentiful problems of raising animals for food? What do the labels really mean? Is free-range better for the environment? Is organic more humane? This presentation offers answers to these critical questions.
